EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Norma E. Henderson (***) soon to be the attorney of record given the dissolution of the previous attorney of records law firm) on 4/7/2004.

The application has been amended as follows:

Cancelled claims 36-45, that were previously withdrawn from prosecution.

End.

REASONS FOR ALLOWANCE

1. **Prosecution on the merits of this application is reopened on claims 1-28 and 30-34 considered allowable for the reasons indicated below:** Applicants arguments in the Appeal Brief filed on 1/30/2004 with respect to Chiang are persuasive. Upon further consideration the Examiner agrees that the Chiang reference fails to explicitly teach of the claimed electrical coupling. Without further information on how the device of Chiang, figure 1, is being driven and/or electrically coupled the Examiner will not assume the claimed electrical coupling as similarly illustrated in the applicants figure 4A. While Chiang teaches of the correct arrangement of display electrode, display, nonlinear element, and display electrode, the claimed electrical coupling will not be assumed. This feature within said arrangement in combination with the remaining claims language is not taught or suggested by the prior art of record. **Claims 1-28 and 30-34 are therefore allowed over the prior art of record.**
